DEPARTMENT INFORMATION

TEACHER OF SCIENCE *with* HEALTH & SOCIAL CARE

Staffing

The department is staffed with an experienced team of committed Biology, Chemistry, Physics and Health & Social care specialists. There are eight full-time members of the department and two part-time teachers. In addition, the department is supported by two laboratory technicians.

Courses

In Year 7 students have 4 lessons per week and in Year 8 students have 3 lessons a week. During Key Stage 3, students follow an accelerated 2-year scheme which is designed to give them a solid foundation in the fundamental ideas of Science before moving on to GCSE in Year 9.

From Year 9 (4 lessons per week), students follow the AQA syllabus for their Science GCSEs with approximately 50% of the year group following the Separate Science route (Biology, Chemistry and Physics) and 50% following the Combined Science route. During year 9, all students follow a common course covering areas of the Biology, Chemistry and Physics syllabus. It is a student's performances in Year 9 assessments and the end-of-year exam that determine whether Separate or Combined Science is the more appropriate route in Years 10 and 11 (6 lessons per week).

The results at GCSE are outstanding and are consistently in the top 5% of the country in terms of progress. At A-Level we have two groups for Biology (Edexcel) and one each for Chemistry (AQA), Physics (AQA) and Applied Human Biology (AQA). We have a history of excellent exam results, consistently achieving a 100% pass rate with a very high proportion of students going on to study STEM subjects at university.
